School mural dedicated

Fifth graders David Rodriguez (left) and Maricela Vizciano examine a huge mural painted by fourth and fifth graders at Mintie White Elementary School. The mural, which depicts the plumed serpent, Quetzalcoatl, was designed by students under the guidance of Aptos artist Carmen Leon and numerous instructors, including fifth grade instructor James Brudnick. "The students began this project in January," Brudnick said. "The theme revolves around transition and change." The mural was dedicated at a ceremony Tuesday night.
